

## #SheCaresCoVid19 Women's Testimonies

### Around the Globe

Young women all over the world are demonstrating their leadership by actively advancing health and safety measures amid the Covid-19 pandemic. Not only as health workers, but also as innovators, communicators, and activists. Tell us about one young leader of your community!

In Gambia, young leader Jama Jack created informative videos and posters in different Gambian languages to tackle the myths about [#covid\\_19](#). In her own words, “Solidarity will provide an opportunity for the sharing of correct information, and this can help to minimize the potential for panic

Female leaders go over and beyond to help during this pandemic. US Congresswoman Alexandria Ocasio-Cortez takes to the streets to distribute, door by door, necessary supplies such as food, medicine and information about Covid-19 to the hardest hit areas of New York City.

Helena Likaj is another young woman leader of our time! She developed and implemented a drive-through testing center in New Orleans for individual testing as Covid-19 tests in the US are becoming more expensive and difficult to get.
